

Graduate Application Checklist

Welcome! The following information will help you learn about the application and admission process for graduate programs in Governors State University's College of Business. Normally, applicants will be expected to have a 3.0 cumulative GPA (on a 4.0 scale) in their last 60 credit hours of their bachelor's degree.

The College of Business Graduate Admission Committee will not review applications until all items have been received.

First, check the application deadlines for your desired term of entry. For the earliest admission decision we encourage you to complete your application as early as possible. For students that are interested in receiving financial support from Governors State University, applications are reviewed on a first come status and while other conditions may need to be met, it is important to submit documents early.

The application process is a two-part process, requiring (1) completion of online graduate application and fee; and (2) submission of documents via the online supplemental application. Carefully review the application checklist to learn what is required to complete your application.
