

MBA in Supply Chain Management

College of Business

Cutting Edge

Rapid changes in the economy and technology, and the globalization of markets have increased the importance of effective supply chain management in organizations. In the **Master of Business Administration** (MBA) program specializing in **Supply Chain Management**, you will learn how to solve logistics problems, mobilize organizations to achieve strategic objectives, and introduce and manage innovations that lead to business success.

Online Program

The Supply Chain Management curriculum provides tomorrow's executives with the strong business foundation needed to compete in a global market.

- Dedicated, world class full-time faculty
- 100% interactive, online format
- Fully accredited
- Student fellowships

Outstanding Preparation

As a Supply Chain Management graduate, you will possess a strong business foundation and familiarity with the cutting-edge theories and practices essential to addressing supply chain management issues. You will gain the analytical and problem-solving skills required of managers and executives. The curriculum focuses on forecasting and supply chain optimization as well as sourcing and procurement. Emphasis is placed on materials management; distribution and logistics; and warehouse, inventory, and transportation management.

Facts

In 2014, the **average salary** for supply chain managers exceeded **\$109,000** while supply chain VP/General Managers exceeded **\$175,000**.¹ The vast majority of executive Supply Chain positions specify a preference for the MBA degree.²
