

**BSW FIELD PLACEMENT
EVALUATION—Spring 2018**

Instructions

The **BSW Field Evaluation** provides a summary of the student's practicum experiences. It includes an overview of the types of learning opportunities in which the student was engaged as well as the demographics of client systems that were served. Please complete the following steps:

1. Student should review their Learning Contract and evaluate their progress within the context of the planned learning goals.
2. Student should identify both areas of strength and areas for improvement.
3. Student should provide the field instructor with recommendations about meeting learning goals the next term.
4. **Student and field instructor should complete the field evaluation separately and then meet to review the evaluation.** Final recommendations regarding this evaluation will come from the field instructor.

Please note that discussion of the items assessed in this evaluation provides an opportunity for the student and field instructor to evaluate progress and to set goals for future learning in the field.

The student is responsible for communicating the date the signed evaluation form is due. It is important that these forms are submitted in a timely fashion since a delay in submission could result in an incomplete grade for the student. This fillable form can be submitted electronically via email to FEO@govst.edu. However, if for some reason, there is difficulty with submission, the field instructor may give the form to the student to return to the school.

Evaluation Rating Scale

The student is to be evaluated according to competency-based criteria in accordance with the CSWE standards listed on the learning contract. Each competency is evaluated based on a five point rating scale.

Each rating descriptor of **student performance** is to be evaluated based on:

- Consistency of performance
- Quality of work
- Appropriate level of independence
- Time needed to accomplish tasks
- Indication of steady progress
- Integration of knowledge, value and skills
- Ability to transfer learning from one activity to the next

To be most effective, students and field instructors should both review and rate the student's progress separately then discuss their answers together before the field instructor completes the final evaluation. This allows the student(s) to be reflective of their own progress as well as receive instructional feedback from their field supervisor.

By the completion of the field placement students are expected to achieve an overall **minimum rating of "competence" in all nine competencies.** Clear evidence of the students' demonstrated competency should be provided to support all ratings.

Evaluation Criteria – grading rubric*

The drop down menu will provide you with a number. Please select the number that corresponds with the description next to it.

5	Advanced Competency	Student consistently demonstrates, integrates and applies values, knowledge and skills in all activities independently and expertly. Student should use consultation appropriately; perform activities in a timely and efficient manner with sufficient quality; perform with cultural humility and competency and demonstrate an ability to teach others.
4	Competency	Student usually demonstrates and integrates values, knowledge and skills with sufficient mastery and independence; uses supervision for consultation appropriately, appropriately applies learning from one activity to another; uses time well to accomplish tasks and assignments; ready to move to advanced placement or beginning practitioner level.
3	Emerging Competency	Student is beginning to demonstrate knowledge/skills; beginning to integrate and apply learning from one activity to the next; requires regular direction and instruction; progress is evident; learning is becoming more efficient; and quality of work is uneven at times but moving in a positive direction.
2	Pre Competency	Student does not consistently demonstrate an integration of values, knowledge and skills; needs constant supervision; quality of work is uneven; tasks are not completed in a timely fashion; knowledge/skills are not transferred from one assignment to the next; and progress is uncertain.
1	Incompetency	<p>Student does not demonstrate basic foundational knowledge of social work skills, ethics, or values in the practice setting. Student is unable to utilize critical feedback from field supervision to improve and develop skills. Student is unable to perform at expected level (even when given clear directions and guidance) and requires excessive oversight and supervision.</p> <p>Student clearly violates NASW professional ethics, does not exercise professional boundaries or fails to follow agency policies.</p> <p>This rating requires examples be provided to show evidence of gross and incompetent practice behaviors.</p>
9	N/A	No opportunities for assessment

BSW students are expected to develop competencies as evidenced by practice behaviors associated with the 9 competencies. **BSW** students should consistently practice skills related to social work practice, values/ethics and professionalism. **BSW** students should learn skills related to interviewing, intake and assessment, contracting for services with the client, agency documentation, and other services deemed beginning level at the field site. **BSW** students must also learn the NASW Code of Ethics and discuss them in supervision.
