- Research your own heritage and personal identity. Branch out and see how you are linked to the rest of the world, hence, a global citizen.
- Research the immigration in the U.S. and the neighborhoods in the Chicago area. How have the communities formed over the last few decades and how are we influenced by them today?
- Volunteer opportunities at organizations that focus on Global Citizenship Initiatives
  - For example, organizations that help with poverty, trade, health, human rights, etc.
- Readings that encourage/discuss Global Citizenship
  - Panel discussion on how giving back impacts the community you are intending to help

**International Connection:** International Connection is a program that encourages engagement between international students, study abroad students and local students in efforts to create a culturally dynamic relationship that promotes sharing and learning of one’s cultural lifestyle. Not only does this program create cross cultural bonds but it is also intended to help assist international students in becoming acclimated to the university and the transition from home to University life.
