

# Download MSOffice 2007 Files

WebCT does not handle MsOffice 2007 files properly. You may upload them without the file extension being changed; however, the file extension is changed to ZIP by WebCT when you try to download an Office 2007 file.

Upload your word document

## Grader/Reviewer Comm

**Example:** Student assignment submitted in MSWord 2007's default file format

# Download MSOffice 2007 Files

## Instructions:

Upload your word doc

## Submission:

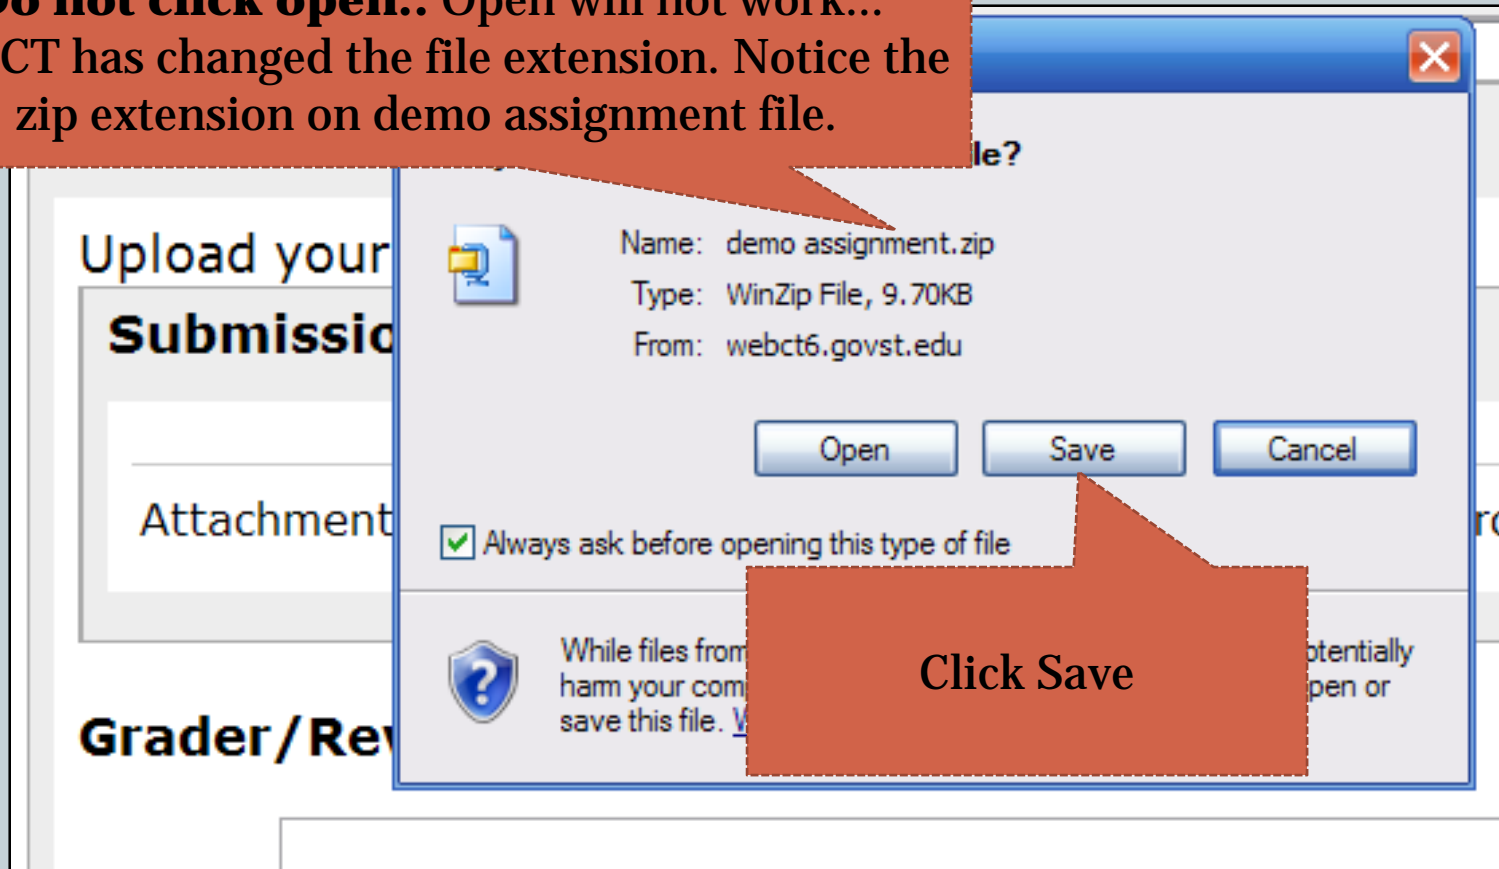

Attachments [demo\\_assignment.docx](#) Demo Student -

## Grader/Reviewer Comments:

Click on the assignment  
to download.

# Download MSOffice 2007 Files

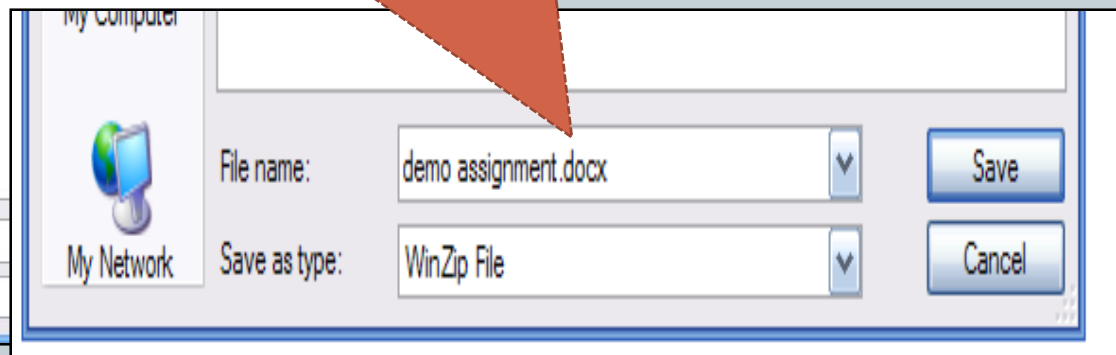

**Do not click open.. Open will not work...**  
WebCT has changed the file extension. Notice the zip extension on demo assignment file.

# Download MSOffice 2007 Files

On the **Saveas** window.. You can change the **zip** to a **docx** extension and click **Save** to rename the file.

**OR:** You can save file with the zip extension to the desktop and rename it there. Once the zip extension is replaced with docx file extension. The file will open and work properly in Word 2007.
