

USING TOUCHNET FOR ONLINE PAYMENT PROCESSING

Dear Student:

The Office of Financial Services is excited to announce that we are partnering with TouchNet for the management of our online payment processing starting June 20, 2017. You can expect to see a slightly different look and feel when making an online payment to your student account.

The partnership with TouchNet will allow us to offer some new features to our students that we have not been able to offer previously. Students will be able to set up one or more *Authorized Users* on their account. Authorized users will receive an e-mail with login information and a temporary password that will allow them to log on to the student's account to make payment and view their student's account information. In addition, students and authorized users will be able to save their payment method (or methods) which will allow for quicker payment processing when making subsequent payments with the same payment method. The University will be implementing TouchNet payment plans later in the year as well so stay tuned!

Please click on the links below for the PDF tutorials that will guide you through the TouchNet online payment process:
