

## DNP Aggregate Program Completion Rates

(Based on Admission Cohorts Fall 2015-Fall 2019 and Completion 2018-Spring 2021)

Updated 8-15-2021

Academic Year	2015-2016***	2016-2017	2017-2018**	2018-2019*	2019-2020*
<b>All Concentrations Full Time &amp; Part Time</b>	3/4 = 80%	1/2 = 50%	1/3 = 33%	0/1 = 0%	0/4 = 0%

**Table 6.3.** Number and proportion of students completing program within 150% of program length, grouped by academic year of first nursing course.

Note: Expected Level of Achievement (ELA) is 70% completion within 150% of program length. Completion Rate formula is #Students Completed/#Students Started = % Completion

\*Cohort has not reached 150% time to completion in this data.

\*\* 1 student did not declare an option (Philippine trained dentist in and out of program)

\*\*\*1 student lost after 1<sup>st</sup> course no option selected

### DNP End of Program Student Learning Outcomes

1. Critically analyze complex clinical situations and practice systems including the social, economic, political and policy components of health care systems to affect care planning and delivery.
2. Demonstrate advanced levels of clinical/judgement/scholarship to improve health care of diverse populations by analyzing and applying conceptual models, theories, and research.
3. Systematically investigate clinically focused areas of practice in nursing.
4. Assume leadership roles in the development of clinical practice models, education models, health policy, and standards of care
5. Integrate professional values and ethical decision-making in advanced nursing practice
6. Collaborate in interprofessional health care teams in diverse health care settings and systems to promote health and prevent illness
7. Assess technology and information systems for best practice across care settings
