Sign In:

20 Attendees

6 PLE

Notes:

Three newer agencies/professionals at our meeting for the first time. Coordinator gave a summary of events attended by MFCI ROSC council in August and September. Several upcoming events were mentioned by council members. Western Illinois University and North Central Behavioral Health “Out of the darkness walk” on October 1st, as well as other events. A suggestion was made to make contact with local agency HR representatives in an effort to find employers that are “recovery friendly” in the hiring and employment process. Coordinator has since received contact information and names of such individuals at 3 different agencies. Information was requested for a crisis team in our counties. We have since received information that there is a similar team in place via the Macomb Police department and North Central Behavioral Health.

Welcome

ROSC Mission:

“Collaborating to build and empower communities of recovery”

ROSC Vision:

- People can and do recover.
- Individuals and families determine the supports and services they need.
- Services and supports are continuous and cohesive across different phases of care and are coordinated across the various agencies involved in their delivery.
- Support of recovery is a community responsibility and value.

- There is inherent flexibility in the system, so it can be responsive to different pathways to recovery.
- Measuring quality and outcomes is a system priority.

ROSC Values:

- Recognize the right of a person to direct their own recovery
- Recognizing that there are many models of, and paths to, recovery
- Operate with integrity and a sense of personal responsibility
- Include the “voice” of peers, family members, and the community in planning and decision-making
- Implement programs with competency and good stewardship
- Empower individuals and families
- Embrace cultural diversity

ROSC Goals:

- Inform, educate and empower individuals and communities
- Determine existing services available as well as the needs to expand necessary services in the areas of prevention, treatment, peer recovery support and systems improvement
- Partnerships that are rich and diverse
- Increase in the number of people pursuing recovery, improving recovery capital to strengthen capacity to build and maintain lives in recovery and build recovery sustainability
