25 Attendees

7 PLE

Notes:

Our October meeting went extremely well. It was the largest attended meeting since I began coordinating for the MFCI ROSC one year ago. We had attendees from Red Cross, AHEC, Macomb Police Department, ROE 33, Sagamon County ROSC, WCI ROSC, University of Illinois, as well as community members and business owners from both McDonough and Fulton Counties. Bridgeway's Community Engagement Director Keri Dodson delivered a wonderful presentation about all of the services that Bridgeway provides for several communities throughout Illinois. Included in these services was the many services Bridgeway provides to individuals with special needs. Many found it informative and useful to know that Bridgeway has properties in seven different communities throughout the state and has services other than mental health and substance use disorder treatment.

Welcome

ROSC Mission:

"Collaborating to build and empower communities of recovery"

ROSC Vision:

- People can and do recover.
- Individuals and families determine the supports and services they need.
- Services and supports are continuous and cohesive across different phases of care and are coordinated across the various agencies involved in their delivery.

- Support of recovery is a community responsibility and value.
- There is inherent flexibility in the system, so it can be responsive to different pathways to recovery.
- Measuring quality and outcomes is a system priority.

ROSC Values:

- Recognize the right of a person to direct their own recovery
- Recognizing that there are many models of, and paths to, recovery
- Operate with integrity and a sense of personal responsibility
- Include the “voice” of peers, family members, and the community in planning and decision-making
- Implement programs with competency and good stewardship
- Empower individuals and families
- Embrace cultural diversity

ROSC Goals:

- Inform, educate and empower individuals and communities
- Determine existing services available as well as the needs to expand necessary services in the areas of prevention, treatment, peer recovery support and systems improvement
- Partnerships that are rich and diverse
- Increase in the number of people pursuing recovery, improving recovery capital to strengthen capacity to build and maintain lives in recovery and build recovery sustainability
