Resources and Connection:

Neesha Stringfellow

The connections have been ebbs and flows. We were told that we run like an RCO, because that is our hearts. We have put our foot to the pavement to get out in the community and make the connections needed. We are making connections in all places that we are going to. Pads donations we were able to connect with Rob from the mental health courts. Testimony of meeting Dr. Kathleen Burke, through her neighbor. Connections can be everywhere.
