Zach George is one of the most driven individuals I have ever met. In June of 2023, Zach opened an Oxford House in Galesburg. In preparation of the house opening Zach and I facilitated and presented at numerous community meetings. We met with probation, drug court, outpatient providers, the jail, human service council and more. We focused on community readiness and referral sources. This was a beautiful experience of how the ROSC Council can help expand recovery resources. Everyone Zach needed to talk to was already a part of the ROSC Council.

### **Recovery Volunteer Team**

West Central IL ROSC is blessed to have a team of people in recovery that volunteer their time to take people to treatment, go with them to their first 12 step meeting and become friends with people just starting out on their recovery journeys. Our volunteer team also helps distribute Narcan, plan events and be the voice for PLE in our council meetings. We would absolutely not be able to do what we do without them.

## **IRIS**

**IRIS is an online community referral platform that keeps efficiency in mind. This tool has been such an asset for our community. It makes getting individuals connected to resources faster and more efficient. Providers no longer have to email and call the other resources needed. **Recharge Teen Center

**The ReCharge Teen Center in Monmouth has been a game changer for our community. Through surveys and interviews, we have found the resources for teens is definitely lacking in our 4 county service area. The teen center has provided a safe space for teen to hang out, do homework, eat snacks and they also have a hygiene closet. This is such a great asset to our community.**
