

Recovery Oriented Systems of Care (ROSC) Recovery Community Survey

Attention Community Members:

This survey is anonymous. The information provided will help in future prevention planning efforts.

* 1. Have you seen this slogan?

None of the above

* 2. If you selected any of the materials above, where did you see it/them?

Social Media

Health Centers/Doctor's Office

Handed Out

Storefront Windows

Gas Station

Library

Community Boards

I have not seen any of these materials

Other (please specify)

* 3. Do you think the information given is believable?

- Yes, very believable
- Netural
- No, unbelievable

Recovery Oriented Systems of Care (ROSC) Recovery Community Survey

Questions About Recovery

The purpose of this survey is to measure public opinion on issues related to recovery. The information collected will be used to identify areas for improvement in our community. Your responses are confidential so please answer the questions honestly and to the best of your ability. Thank you for completing this survey.

Substance Use Disorder (SUD)- is a medical condition where a person struggles to control their use of a substance, despite harmful consequences. It involves cravings, compulsive use, and often impacts health, relationships, and responsibilities.

Recovery is the ongoing process of improving health and well-being, managing symptoms, and building a fulfilling life after overcoming substance use or mental health challenges.

4. I know someone with a substance use disorder.

- Yes
- No
- I am a person in recovery

5. There is a stigma in my community about people who have a substance use disorder.

- Strongly agree
- Disagree
- Agree
- Strongly disagree
- Neither agree nor disagree
