Sauk Valley Voices of Recovery

Coordinator:

Gerald Lott and Lauren Metzler

Who We Are

The Illinois ROSC Council (Recovery-Oriented Systems of Care Council) is a statewide collaborative network dedicated to promoting and strengthening recovery support systems for individuals and families affected by substance use and mental health challenges. The council brings together representatives from recovery community organizations, treatment providers, public health agencies, and people with lived experience to guide policy, share best practices, and ensure that recovery services are accessible, person-centered, and sustainable across Illinois.

The ROSC Council's mission is to foster a culture that values recovery as a lifelong process and supports multiple pathways to wellness. By coordinating efforts at both state and local levels, the council works to reduce stigma, expand recovery resources, and build strong community partnerships. Ultimately, the Illinois ROSC Council strives to create an inclusive recovery-oriented system where every person has the opportunity to achieve and sustain long-term recovery.
