The group also planned a panel event for March 9th with consideration of using either the Life Center or the Family Life Center as venues.

Community Education Event Planning: Sara and Kristina discussed planning an educational event, targeting both the general public and professionals in their community. They decided to hold the first event on Monday, January 12th at 5:30 PM at the Life Center, with Kristina agreeing to contact the center the next day to confirm. The first event will focus on explaining to community members what Recovery Housing is and what it isn't, explaining the different levels of care, and addressing the (NIMBY) not in my backyard concerns.

Panel Event: The team scheduled a panel event for March 9th at 5:30 p.m. The panel will feature individuals who have personally benefited from Recovery Housing, as well as representatives from fully operating Recovery Housing programs.
