

Cumberland County

Recovery Oriented Systems of Care (ROSC) Community Survey

PURPOSE: This survey is to gauge the level of awareness of all available resources in Cumberland County and measure public opinion on issues related to recovery. The information collected will be used to identify areas for improvement in our community and will remain confidential.

DEFINITIONS: The terms listed below are used throughout the survey and are provided to ensure people provide the best educated answer.

CPRS- Certified Peer Recovery Specialist (CPRS) — a trained peer with lived experience of substance use disorder or mental health recovery who provides support, advocacy, mentoring, and resource navigation to others.

Diversion Program: A diversion program gives people who break the law—especially those struggling with drug or alcohol use—the chance to get help instead of going to jail or prison. If they follow the rules of the program, such as completing treatment, counseling, community service, and meeting with Certified Peer Recovery Specialist, they are not formally charged with a crime. The goal is to help people make positive changes, reduce repeat offenses, and keep communities safer.

Drug Overdose Prevention Program (DOPP) Site- designated location in the community—such as a business, library, or community center—that hosts a public Narcan display. These sites provide free access to Narcan (naloxone), a life-saving medication that reverses opioid overdoses. Community members can take Narcan from these sites at any time, with no questions asked and no requirements to provide personal information.

Harm Reduction- evidence based strategies that aim to minimize the negative consequences associated with substances use, prevent overdose & infectious disease transmission, improve over-all wellbeing, & provide low-barrier access to healthcare services.

Recovery- a process of change through which people improve their health and wellness, live self-directed lives, and strive to reach their full potential.

Recovery Housing/Transitional Housing- Recovery or transitional housing is a safe place to live for people who are working to overcome drug or alcohol problems. These homes are alcohol- and drug-free. People living there support each other, follow house rules, and may get help finding jobs, going to school, or moving into their own place. It's a stepping stone between treatment or crisis and living on their own.

Substance Use Disorder- another phrase used for addiction to drugs or alcohol; a complex medical condition characterized by uncontrollable patterns of substances despite harmful consequences.

1. In your opinion what makes it hard for people to recover from substance use in our community?

2. Are you aware of where to access support for the following?

Food Assistance- Yes or No

Affordable Housing- Yes or No

Family Support Services- Yes or No
