Virtual Meeting Topic: LC ROSC Realignment From Understanding To Action

ROSC - A Recovery Oriented Systems of Care (ROSC) is a coordinated network of community-based services and supports that is person-centered and builds on the strengths and resilience of individuals, families, and communities to experience recovery and improved health, wellness, and quality of life for those with or at risk of substance use and/or co-occurring conditions. The central focus of a ROSC is to create an infrastructure, or "systems of care", with the resources to effectively address the full range of substance use and/or co-occurring disorders within communities.

The purpose of this meeting is to coordinate, strengthen, and transform the community's recovery ecosystem—ensuring that recovery is supported not just in treatment settings but throughout everyday life, across entire communities, and through partnerships that build long-term wellness.

Amanda Douglas opened the meeting and asked new members to come off mute and introduce themselves and invited regular attendees to introduce themselves in the chat.

She then shared the following agenda:

ROSC Mission and Vision

2025 Survey Findings & Gaps

ROSC Council Strategic Realignment

Questions, comments, and suggestions

How LC ROSC will operate going forward, the council will work in two separate but equal groups, Warm Hand Off (WHO) with Project Coordinator, LaSheena Jenkins and Justice Impacted Families (JIF), Project Coordinator, Jessica Baynes.

From the discussion and questions, the need for purposeful collaboration to create shared understanding to build coordinated action that ensures recovery is not just discussed but practiced consistently across the community was easily understood.
