Kari Knapp thanked everyone for their continued commitment and emphasized that this work would not be possible without the dedication of our ROSC Council.

As we move forward, we encourage everyone to begin thinking about how we – and our respective agencies – can collaborate more intentionally. During the breakout discussions, questions around liability and legality emerged as key concerns, along with a clear need for basic harm reduction education.

In response, we can develop training materials to share with Council members for use at upcoming outreach events and community engagements. Please let us know about any events on your calendar. We are happy to provide the resources and materials needed to help share accurate information about harm reduction and promote the hope of recovery.

Thank you again for your partnership and leadership in this important work!

Erika Hahn inquired if there is a place to download ROSC flyers, etc. Cat Hays explained we are in the process of streamlining the McLean County ROSC

Resource Guide and the GSU Website currently has some ROSC resources. Erika noted that it would be nice to be able to download and print each other's resources or link website pages.
