After introductions the group spent time updating each other, there was time to share about their personal experiences, and some difficult current situations they are going through and offered support to each other. Misty set up some times with some members to help provide support. Andy informed the group about some activities he has done in the past with a recovery group and was asking for any feedback. STYLE is intended to be a positive, welcoming and worthwhile meeting for community members. Some group members helped inform those new to STYLE what the mission is and learn more about ROSC, if they did not already know.

Attendees spent time talking about the Vigil that will be held August 31st at the Courthouse in Tuscola. Everyone was welcomed to speak at the Vigil and if they know someone who would like to speak, to invite them. One person in the group said they want to speak.

The group talked about Recovery Month activities like putting the solar lights and pinwheels at courthouse. Having a coffee shop in the area highlight recovery month with a purple drink will happen again this year. Putting up a small display of recovery books and information/resources during the month of September in a couple of the local libraries. There was discussion about how these activities help in breaking stigma in our community.
