FINDING FUNDING OPPORTUNITIES

- Principal Investigators (PI) are encouraged to search for funding opportunities in their field of interest.
- When a sponsor limits the number of proposals to be submitted per institution, OSPR will work with the faculty to determine which proposal will be submitted to comply with the sponsor's guidelines.

PREPARING PROPOSALS

- Grant writers submitting a Letter of Intent, Pre-Proposal, or a White Paper **must submit a Notice of Intent form to OSPR as soon as the decision is made to apply for the proposal**, especially if a detailed budget or institutional approval is required.
- OSPR will work with grant writers on developing a budget and will fill out other budget forms as required by the proposal or pre-proposal. Please work with OSPR to develop the budget **no less than fifteen (15) days** prior to the deadline.
- OSPR will review and provide comments to the grant writers on the proposal and other required documents if given no less than **five (5) business days** to review.
- OSPR will work with the grant writer to obtain sub-recipient documentation at the proposal stage. A letter of intent signed by the institution's authorized official, a statement of work, and a budget are generally required.
- Grant writers should ensure that cost share is documented, the source is identified, and the chair's or dean's, if necessary, the chair's or dean's approval is obtained.
- OSPR will work with grant writers to complete proposal submission methods, including Grants.gov packages, to ensure that all institutional information is accurate and all required information is provided in the proposal.

SUBMITTING PROPOSALS

- OSPR will submit the proposal to the sponsoring agency unless otherwise agreed upon between the principal investigator/project director and OSPR. No proposal should be submitted on behalf of the university without the consent of the OSPR Director.
- The designated authorized signing official for submitting proposals on behalf of the university is the Director of OSPR. No one else should sign proposals or be listed without the president of the university's authorization.
- OSPR will need a complete and final version of the proposal submitted, if submitted by the principal investigator/project director.
- OSPR will assist with any Certifications and Assurances that are needed.

RECEIVING AWARDS

- If award documents are sent to the grant writer, the complete award document should be forwarded to OSPR.
- The designated authorized signing official for accepting awards on behalf of the university is the Director of OSPR. No one else should sign awards or be listed without authorization from the president of the university.
- OSPR will review and obtain signatures for award documents.
- OSPR will maintain a copy of all award documents.
- OSPR will work with the principal investigator/project director, Financial Services, Human Resources, and Procurement to ensure the award process is smooth and everyone has the information they need.

MANAGING AWARDS

- The principal investigator/project director should complete and submit technical and progress reports to the sponsor in the required format by the due date.
- The Financial Research Administrator should complete and submit financial reports to the sponsor in the required format by the due date.
- OSPR will assist with the coordination of completing and submitting other reports, as necessary, by the due date.
- OSPR, principal investigator/project director, and other university offices should work together to address issues and maintain compliance with award guidelines.

INSTITUTIONAL REVIEW BOARD

- The goal of the IRB is to balance the protection of human subjects with facilitating faculty and student research through information, training, and advice.
- At Governors State University, there is one IRB that reviews primarily social behavioral research.
- The IRB consists of twelve (12) members, including eleven (11) members representing various academic departments and one (1) community member.

COMMONLY ASKED QUESTIONS ABOUT IRB

- **What training does the IRB require?** Governors State University uses CITI training platform. All investigators conducting human subjects research are required to take Basic Course in Social Behavioral Research or Biomedical Research.
- **How often does the IRB meet?** The IRB has monthly meetings for full board reviews and reviews exempt and expedited studies on a rolling basis.
- **How long does it take to obtain IRB approval?** The IRB strives to keep the turnaround time for initial exempt and expedited reviews at seven (7) business days. However, the entire process from submission to approval may take up to four (4) weeks due to required organizational certifications and possible requests for revisions.
- **How to submit an IRB application?** IRB applications are submitted through Cayuse, an electronic submission management system for research protocols. Instructions for Cayuse submissions are available on the IRB website www.govst.edu/irb
- **How has COVID-19 affected IRB reviews?** The IRB approves research with virtual recruitment and data collection activities. Modifications must be approved by the IRB. Informed consent templates for online surveys and zoom/telephone interviews are available on the IRB website. These restrictions/processes will be adapted based on guidance from OHRP.
- **Where to find more information about the IRB?** The IRB website www.govst.edu/irb has instructions for Cayuse, consent templates, policies, and guidance documents.

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE

- The IACUC is charged with protecting animals used in research, teaching, and testing.
- At Governors State University, the IACUC reviews research with vertebrate animals. It also conducts inspections of all areas where animals are housed and used and reviews the institutional policies and procedures for animal use.
- The IACUC has eight (8) members, including a veterinarian and a community member.

COMMONLY ASKED QUESTIONS ABOUT IACUC

- **What training does the IACUC require?** All investigators conducting animal research are required to take CITI training in the protection of laboratory or wild animals. The IRB accepts CITI training completed at another institution, provided it covers all required modules and is up to date.
- **How often does the IACUC meet?** The IACUC usually meets twice a year.
- **How long does it take to obtain IACUC approval?** All IACUC reviews are done at IACUC meetings. The review process may take between four (4) and eight (8) weeks.
- **How to submit an IACUC application?** IACUC applications are submitted through Cayuse. Instructions are available on the IACUC website www.govst.edu/iacuc
- **Where to find more information about the IACUC?** Visit the website www.govst.edu/iacuc
