Meeting Summary:

The Bounce Back 2 Life ROSC meeting was held as a community forum focused on recovery support, awareness, and community engagement. The forum provided an opportunity for community members, service providers, individuals in recovery, families, and other stakeholders to come together to discuss the challenges associated with substance use and the resources available to support individuals on their path to recovery.

Key discussions centered on the importance of peer support, access to recovery resources, prevention, treatment, and long-term recovery services. Participants shared experiences, identified barriers that individuals and families may face when seeking support, and discussed ways the community can work together to create a more supportive and recovery-oriented environment.

The forum also emphasized the importance of reducing stigma surrounding substance use and recovery. Participants were encouraged to recognize recovery as a process and to support individuals through connections to appropriate services, community resources, and positive support networks.

Overall, the Bounce Back 2 Life ROSC community forum served as a valuable space for education, collaboration, resource sharing, and community dialogue. The meeting reinforced the importance of strengthening partnerships among local organizations and community members to ensure individuals and families have access to the support and resources needed to achieve and maintain recovery.
