How to Access Panopto on Mobile Device

Please note that this tutorial uses the Blackboard app to access Panopto. You can use a mobile internet browser to sign into Blackboard and access Panopto, but your browser will need to accept cookies.

Open the Blackboard app and sign into Blackboard. Access the course where Panopto content is available. Some Instructors may have you access the Panopto tool link (left navigation menu) within the course. Other Instructors may have you access Panopto content within the weekly modules.

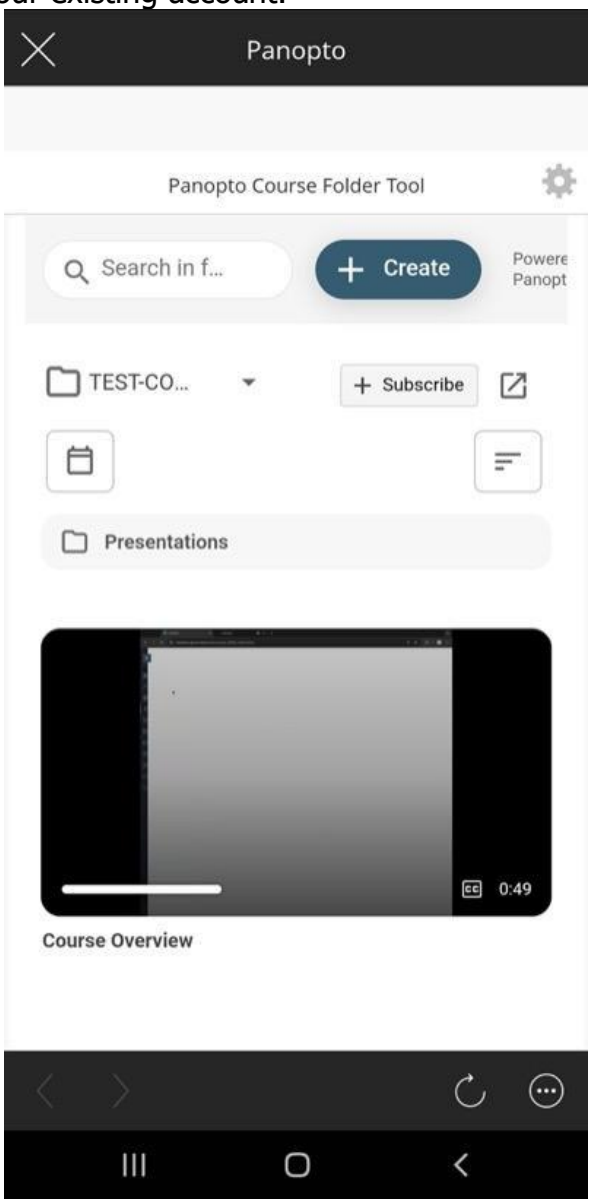

Panopto Tool Link:

Enter the Blackboard course. You should notice a title called Panopto or Videos (or something similar).

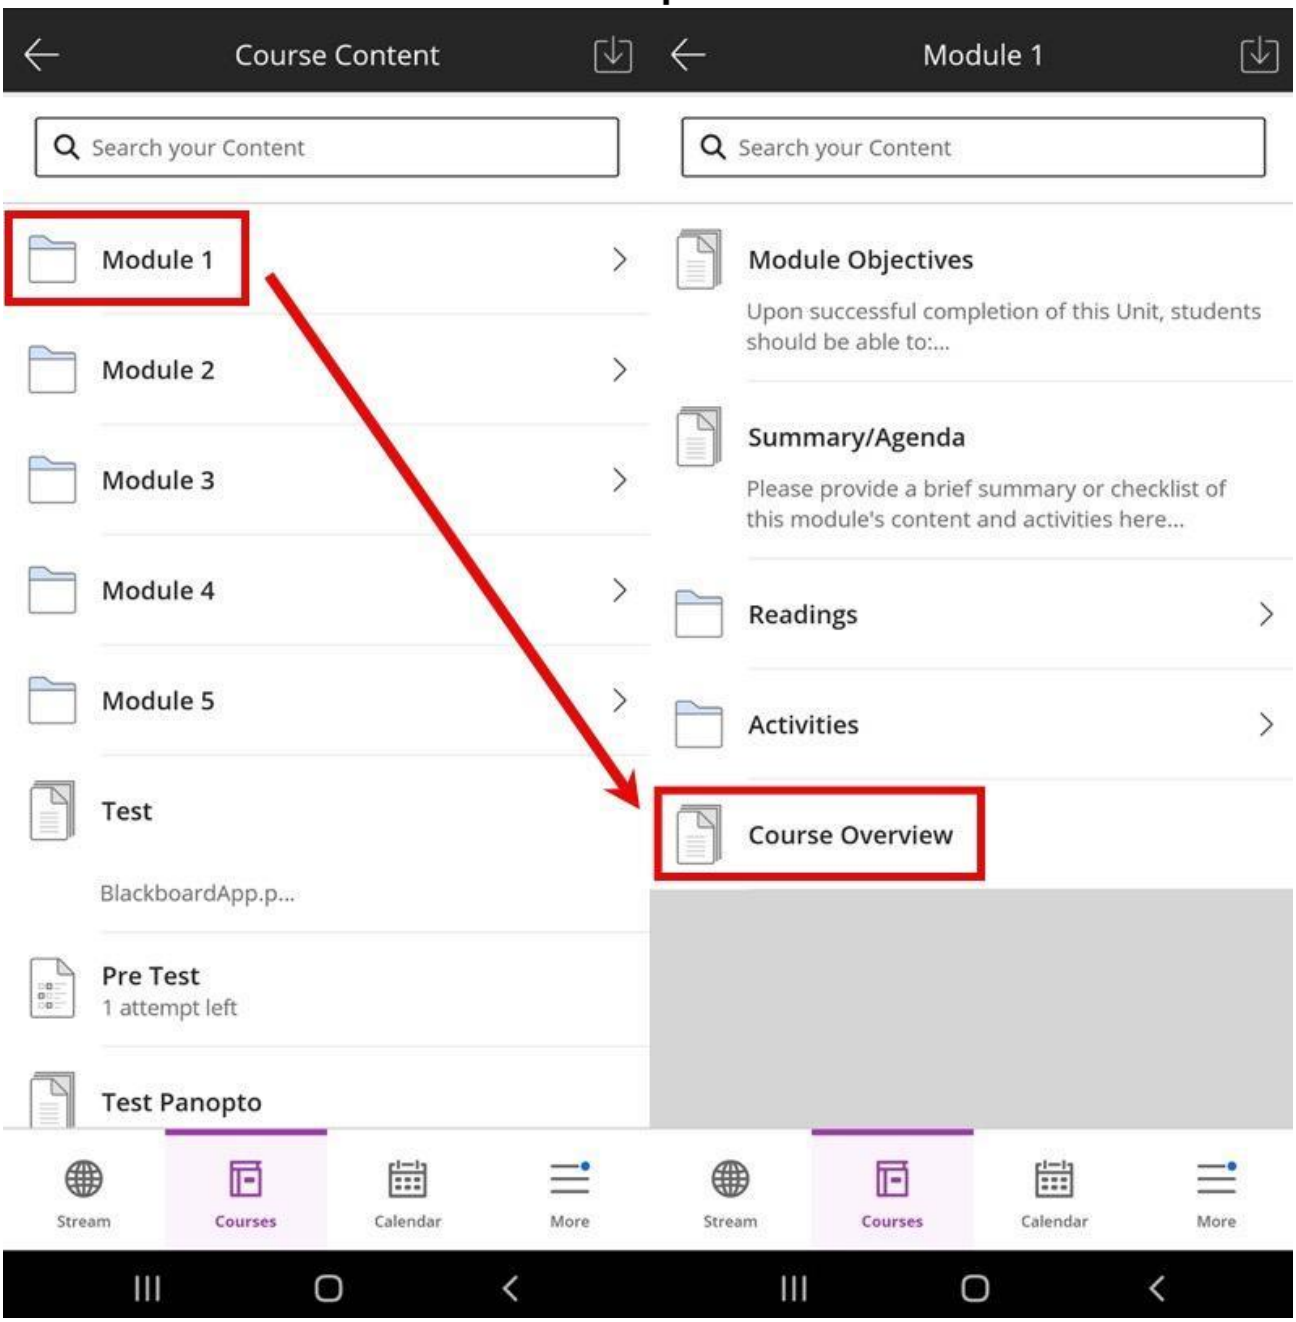

Blackboard Questions?
Email: blackboard@govst.edu Phone: (708) 534-4115

If this is your first time access Panopto, the Blackboard/Panopto integration will create your account. Otherwise, Panopto will use your existing account.

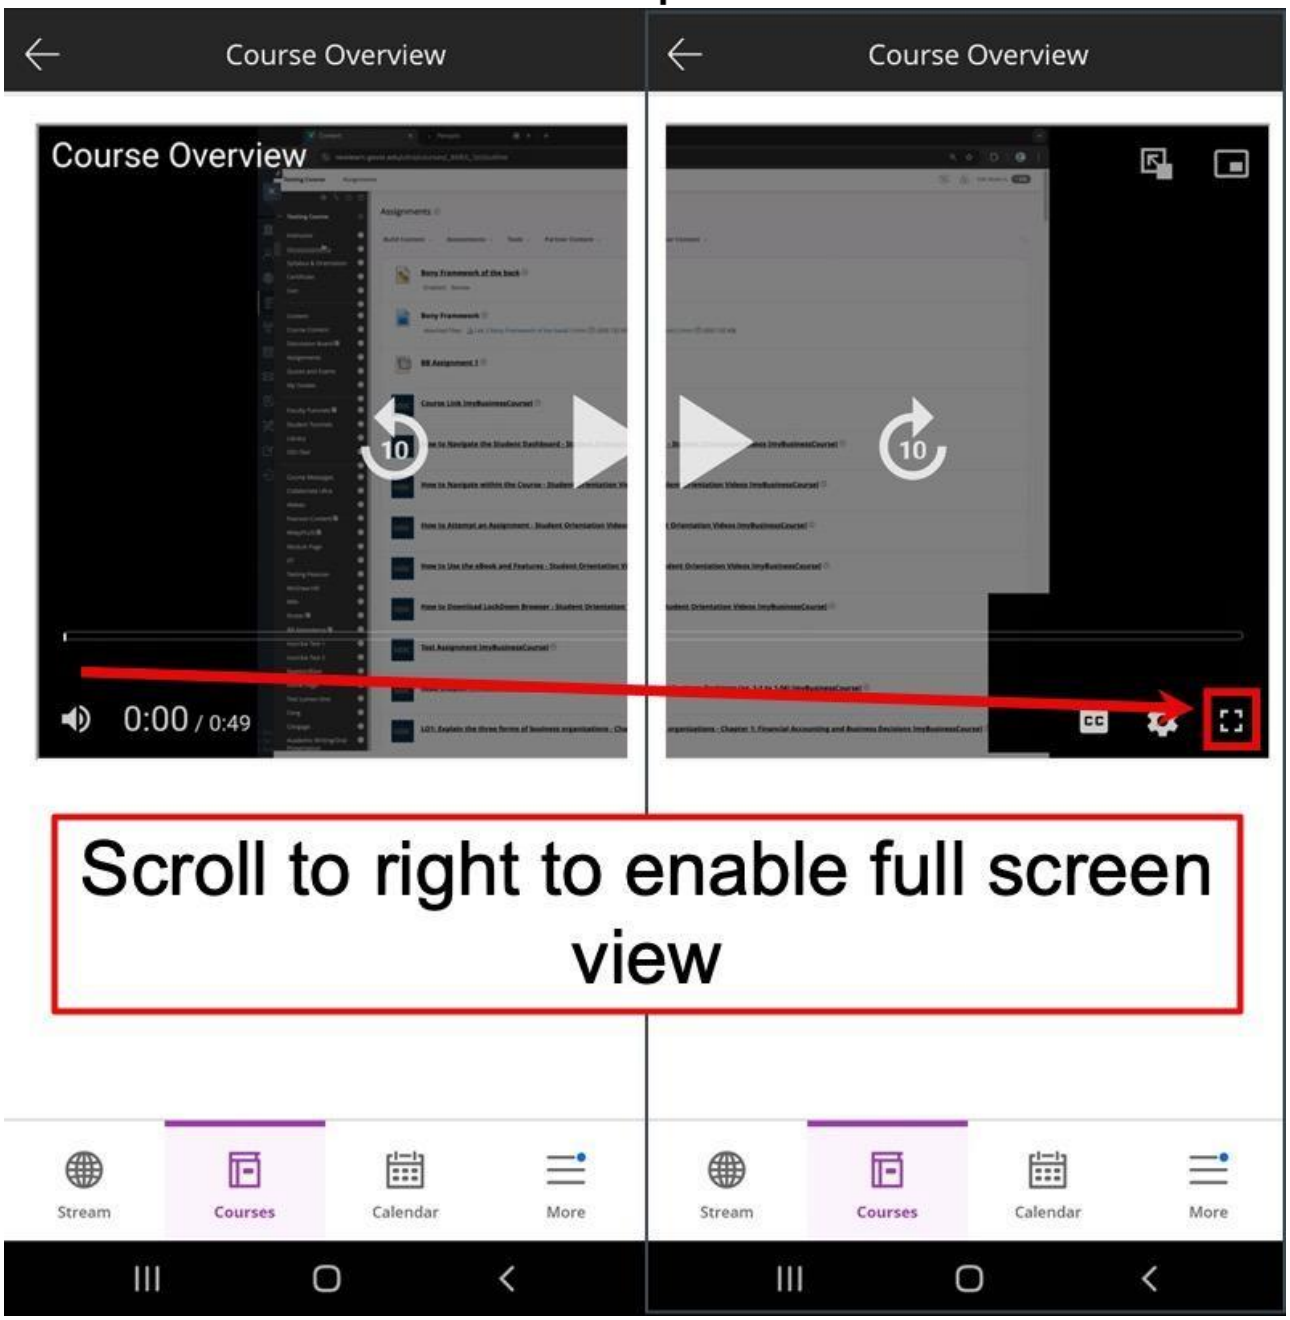

Panopto Videos within Modules:

From the Course Content section, your Instructor may have created weekly modules, which may include content items such as Objectives, Agendas, Reading, Activities, etc. Find where the video is stored within the module and click to open.

The video should appear, but you may notice only have the video player is showing. Scroll to the right of the page and enable full screen view.
