Submitting a SL&L (Via) Activity through a Blackboard Link

Student Learning & Licensure (formerly Via) is a product that is used for assessment of student work against standards rubrics. Results of these key assessments can be reported for accreditation of departments and programs at GSU. *There is a difference between grading and assessment.* Grading is how many points a student earned on an assignment. Assessment is whether or not, or to what degree, student work met or did not meet a standard. But, depending on settings set by the instructor, points can be sent from SL&L (Via) to the Blackboard Gradebook by using this link method for submitting key assessments in SL&L (Via) for assessment that potentially also have point values for grading in Blackboard.

DISCLAIMER: This link to SL&L (Via) is meant to be used by students to submit their assignment through Blackboard. If students submit their work through SL&L (Via) directly, and the Blackboard Gradebook is synched to SL&L (Via), the score in SL&L (Via) might not sync to Blackboard AND the grade for the assignment in Blackboard would then have to be entered into the Gradebook manually by the instructor.

Students only need to submit their work in one place: the link in Blackboard that will connect to SL&L (Via). The instructor will evaluate the rubric and enter the score in SL&L (Via), and the score should automatically be updated in Blackboard upon completion. *Students might additionally have to submit their work in a separate assignment prompt in Blackboard for grading purposes only if the assignment is not synched between SL&L (Via) and the Blackboard Gradebook - your instructor will let you know if this is the case!*

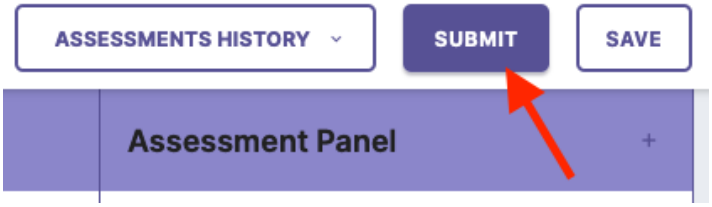

1. Login to your Blackboard course

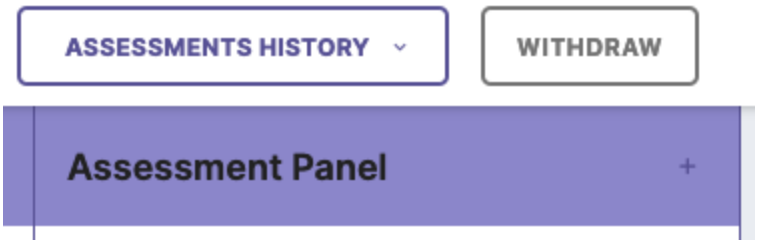

2. Find the location of the SL&L (Via) link and click the title.

3. A new window will open prompting you to submit your work. There may be some specific directions from the instructor. When ready, click the "SUBMIT" button in the upper right.

4. When you return to the previous screen, the "SUBMIT" button should no longer be present, confirming that you have submitted your assignment. You may now close the tab to return to Blackboard.

If the assignment in SL&L (Via) is synched with the Blackboard Gradebook, when your instructor has finished grading the assignment in SL&L (Via), the score should appear in your "My Grades" area of Blackboard.
