San José, Costa Rica: [Health Care Courses in English & Medical Spanish](#) (summer) - \$4,650

GLOBAL SERVICE-LEARNING

ISA Service-Learning merges the concept of civic responsibility and community-based learning by connecting students and recent graduates with service opportunities abroad. By partnering students with community-based organizations and following a structured, reflection-based curriculum, participants develop intercultural and leadership skills in a real-world context while learning how local experts are addressing issues with the available resources.

Our Service-learning opportunities are categorized by community sectors, including Human Rights, Health, Education, Family and Youth Development, etc. Students from all majors and backgrounds may indicate interest in any of these areas, and we will then best match students with community partner organizations and projects that are needed around the time and duration of the student's program.

While service-learning abroad can be an incredible, perception-altering opportunity for students to be challenged in a real-world setting, we understand that students must receive enough support to face and overcome challenges. Through advising, interactive pre-departure resources, online curriculum, and cultural training and reflection with on-site staff, we aim to prepare students for success in achieving learning objectives in the areas of personal growth, civic learning, cultural competency, and academic application.

Community Sectors:

- [Animal Care and Rescue](#)
- [Child and Family Development](#)
- [Community Agriculture](#)
- [Community Enrichment through the Arts](#)
- [Community Health Education and Support](#)
- [Disabilities and Special Needs](#)

Summer	June 8-week	Late May/Early June	Late July	March 1
Summer	July 4-week	Late June/Early July	Late July	April 1
Fall	September 8-week	Mid September	Mid November	June 1

*Galway summer program dates differ. Please see [website](#).

INTERNSHIPS

The ISA Internships program, with placements available in every field of study, provides participants the opportunity to gain valuable personal and professional experience, cultural understanding and personal independence while working at organizations and businesses around the world.

The program is designed to give students a comprehensive, meaningful professional experience that goes well beyond just the placement. Internships are not built around menial tasks; instead they are intended to differentiate students so they stand out from the competition with quality placements. The application and

placement process for the ISA Internship program is centered around each individual student. Instead of a pre-determined list of opportunities, our in-country placement teams seek out custom-matched internship positions for each student based on their academic background and professional goals

ISA Internships offers four 8-week Set-Date programs each year in each of our program locations: Australia, Chile, China, England, Ireland, New Zealand, South Korea and Spain. Internships are full-time, requiring a minimum of 32-hours a week at their host company. We can accommodate placements in English in each of our program locations.

We offer optional academic credit through Carroll College for our 8-week programs. The Internship course is an upper division, undergraduate course valued at six semester credits. There is an additional \$300 fee to enroll in the course.

Our recommended program locations for each career field are listed on our website. If you see a program location listed under a specific career field, it means that we can do placements in that field in that location—though the placements listed are just sample past placements and do not represent the full range of placements we can provide.

[Program prices](#) vary by program location, but all 8-week programs will be under \$10,000.

- [Arts & Humanities](#): this career field would include Anthropology, Art, English, Gender Studies, History and Sociology
- [Business and Marketing](#)
- [Communications, Media and PR](#): this career field would include Media and Mass Communication majors
