

The Bachelor of Health Administration Program at GSU is accredited by the Association of University Programs in Health Services Administration (AUPJHA). AUPHA Certified Undergraduate program members are recognized for having withstood the rigors of peer review in which curricula, faculty, and educational outcomes are critically examined. External stakeholders look at certification as a way to distinguish a program from its peers. Prospective students and their families seek out AUPHA Certification when searching for a program where they will invest in their future. There are only 49 AUPHA-certified programs in the United States and Canada and BHA Program at GSU is among these selected few. (link.
