

Summer GUIDE Internship

Program Overview

- Partnership with University of Illinois Cancer Center (UICC)
- Provide a catalyst for representation of minorities in the area of cancer disparities research

Training-Education Core

- Provide GSU undergraduate students with educational experience through mentorship to facilitate growth
- Engage in research training as it relates to *local* cancer disparities

The **GUIDE** Project Team gratefully acknowledges that this project is funded by the National Cancer Institute's Center to Reduce Cancer Health Disparities Grant #: 1P20CA202907-01 and 1P20CA202907-02.

The GUIDE Project

The Governors State University (GSU) - University of Illinois Cancer Center (UICC) Disparities Education Cancer Research and Training Project

GSU Principal Investigators

Catherine Balthazar, PhD
DeLawnia Comer-HaGans, PhD

UICC Principal Investigators

Kent Hoskins, MD
Phoenix Matthews, PhD
Robert Winn, MD

GSU Early Stage Investigators

Jessica Bonner, PhD
Vickii Coffey, PhD
DeLawnia Comer-HaGans, PhD
Joseph Day, Dr.PH
Giesela Grumbach, PhD
Carolyn Rodgers, PhD
Shirley Spencer, PhD

GSU Internal Advisory Committee

Walter Henne, PhD
David Rhea, PhD
Ning Lu, MPH, PhD
Renee Theiss, PhD

How to get involved...

Benefits

As a GUIDE Project Intern, you will have the opportunity to network with faculty and researchers at UICC and GSU. The internship experience will provide an outlet for you to establish a mentor (or mentors) currently in the field of cancer health disparities research. Benefits also include:

- Building upon experience in the field of health and human services, specifically, cancer-related topics
- Financial assistance
- Residential housing is available
- Development of verbal and written communication skills
- Leadership opportunities within your community
- Collaboration with researchers and/or faculty
- Strengthening your resume and skills as a student researcher

Make a difference in your community by applying your much-needed knowledge and motivation through contributions to research!

*IN 2017, THERE WILL BE AN ESTIMATED **64,720** NEW CANCER CASES DIAGNOSED AND **24,040** CANCER DEATHS IN **ILLINOIS** ALONE.*

Research Activities

GUIDE Project Interns are assigned a mentor based on shared interest and career aspirations. Mentor will design and implement a research project supported by a UICC researcher or research team. As an Intern, your responsibilities may include:

- Attending workshops or conferences related to latest research
- Contributing to project team meetings
- Conducting literature reviews
- Recruiting or enrolling research participants
- Collecting, maintaining and/or analyzing data
- Develop and present research paper, poster, and oral presentation with guidance
- Attend weekly writing workshop and journal club
- Participate in volunteer and other community outreach experiences
- Instituting health programs related to education, outreach and intervention

Application Process

Consideration for an internship opportunity through the GUIDE Project requires an application process:

- A complete application form on file
- Provide copy of current resume and cover letter
- Provide copy of unofficial college transcripts
- Personal statement describing specific interest in cancer disparities
- Provide 2 official letters of recommendation (one must be from a faculty member)
- Statement of current career trajectory
- Be able to make an eight week commitment over the summer

Turn completed application packet, in person, to the Project Manager, Kathy Gustafson, G374. Deadline: February 28, 2019

"This collaborative effort will make a difference right now in our **Southland communities** as well as support the development of **future leaders** in cancer health disparities research."
~ GSU Provost Deborah Bordelon

"The GUIDE program furthered my interest in the field of public health by providing me with a vast array of knowledgeable resources to utilize in the near future. I appreciate the GUIDE program for opening my eyes to the many disparities faced by individuals who look like me. With this knowledge, I want to be able to address these issues and create change for a greater future".
~ GSU Summer Intern 2017 Monet Jones
