

**Knowledge And Skills Acquisition (KASA) Summary Form
For Certification in Speech-Language Pathology**

The KASA form is intended for use by the certification applicant during the graduate program to track the processes by which the knowledge and skills specified in the 2005 Standards for the CCC are being acquired. Each student should review the KASA form at the beginning of graduate study, and update it at intervals throughout the graduate program and at the conclusion of the program.

The student, with input and monitoring of program faculty, must enter a check mark in column B as each of the knowledge and skills is acquired. It is expected that many entries will appear in the course work and the clinical practicum columns, with some entries, as appropriate, in the "Other" (lab, research, etc.) columns. Please enter the course or practicum number and title and description of other applicable activity.

I. KNOWLEDGE AREAS

A	B	C	How Achieved?	
Standards	Knowledge/ Skill Met? (check)	Course # and Title	Practicum Experiences # and Title	Other (e.g. labs, research) (Include description of activity)
Standard III-A. The applicant must demonstrate knowledge of the principles of:				
• Biological sciences		3 hours with "C" or better		
• Physical sciences		3 hours with "C" or better		
• Mathematics		3 hours with "C" or better		
• Social/Behavioral sciences		3 hours with "C" or better		

<p>Standard III-B. The applicant must demonstrate knowledge of basic human communication and swallowing processes, including their biological, neurological, acoustic, psychological, developmental, and linguistic and cultural bases</p>				
<p>• Basic Human Communication Processes</p>				
<p>• Biological</p>		<p>CDIS 345 Anatomy & Physiology of Speech/Hearing</p> <p>CDIS 540 Neuroscience for Study of CDIS</p> <p>CDIS 700 Voice and Resonance Disorders</p> <p>CDIS 705 Articulation and Phonological Disorders</p> <p>CDIS 710 Child Language Disorders: Early Stages</p> <p>CDIS 720 Child Language Disorders: Later Stages</p> <p>CDIS 770 Aural Rehabilitation</p>

Standard IV-G: The applicant for certification must complete a program of study that includes supervised clinical experiences sufficient in breadth and depth to achieve the following skills outcomes (in addition to clinical experiences, skills may be demonstrated through successful performance on academic course work and examinations, independent projects, or other appropriate alternative methods):				
1. Evaluation (must include all skill outcomes listed in a-g below for each of the 9 major areas)				
a. Conduct screening and prevention procedures (including prevention activities)				
b. Collect case history information and integrate information from clients/patients, family, caregivers, teachers, relevant others, and other professionals				

<p>c. Select and administer appropriate evaluation procedures, such as behavioral observations nonstandardized and standardized tests, and instrumental procedures</p>				
<p>d. Adapt evaluation procedures to meet client/patient needs</p>				
<p>e. Interpret, integrate, and synthesize all information to develop diagnoses and make appropriate recommendations for intervention</p>				
<p>f. Complete administrative and reporting functions necessary to support evaluation</p>				
<p>g. Refer clients/patients for appropriate services</p>
