

Achieve Your Professional Dreams and Goals

GSU Nursing programs prepare nurse leaders who address the challenges of local, regional, national and global healthcare reform. Our nursing programs focus on providing quality, holistic care, creating healing environments and building caring communities. The GSU nursing faculty includes Advanced Practice Nurses, seasoned educators and doctorally-prepared researchers who provide students with an exceptional educational experience.

The Difference a Degree Can Make

A Bachelor of Science in Nursing expands your knowledge of the art, science and practice of nursing as you build on your qualifications and advance your career. If you're an RN with an associate degree or diploma in nursing and an active RN license, consider GSU's online RN to BSN Completion Program.

Built for You – the Working Nurse

The RN to BSN Completion Program is offered in a manner that considers the needs of the working nurse. Our program is delivered through dynamic online classes. The degree can be accomplished in three terms.

Both the undergraduate and master's nursing programs are accredited by the Accreditation Commission for Education in Nursing. The RN to BSN Completion Program also incorporates the latest recommendations of the American Association of Colleges of Nursing.
