Desired Outcomes and Achievements (Identify results expected)	Create, build, and sustain community by applying knowledge to help others. Develop well-informed, multi-faceted understanding of community service initiatives and student engagement. Ability to interact effectively with diverse populations Faculty receptive to implementation of community service participation
Achieved Outcomes and Results	Faculty attended ASB in Costa Rica and developed a curriculum for the experience as well as community service projects throughout the year.
Analysis of Results (Where outcomes met? Exceeded? Progress towards goal. Implications for FY20 Objectives.)	As more students become aware of the services/ programs that are available through Civic Engagement and the CSC they have become more proactive with utilizing them. Programs such as our food pantry Operation Healthy, and service trips have all exceeded the expectations we had for these programs. As we bring more members on board, expanding and creating newer ways to engage student we are well on our way to reaching the vision 2020. Moreover this may change with the merger of Civic Engagement and Diversity Programs in FY20
