

Nikki Renee Anderson

Blossoms Becoming

January 20 – April 30, 2026

Skylight Gallery – GovState Library

Nikki Renee Anderson transforms the garden into an intimate tableau where the cycles of life unfold in vivid, visceral form. Inspired by childhood mornings spent alone among blooming plants, she embraces the garden as a space of renewal, growth, and transformation. Her floral, bodily, and organic sculptures stand as small monuments that celebrate beauty, sensuality, and strength. Together, they invite viewers into a world where the natural and the personal intertwine, revealing the quiet power held within life's continual blossoming.

Wednesday, March 4, 2026
