Governors State University

REPEATING COURSES POLICY

I. A student may elect to repeat a course.

II. A student may repeat a GSU course by reregistering for it during a term subsequent to the initial registration for the course.

III. The highest grade awarded for all attempts will be the assigned grade. The lower grades will remain on the transcript with an “R” to indicate a repeated course. This is an automatic process and no explicit student request to the Registrar will be necessary.

IV. Exceptions: There are courses which are exceptions to the above. Such exceptions will be clearly laid out in the syllabus as submitted to the University Curriculum Committee, and will be so indicated in the course catalog. In the event a student wishes to replace a grade for courses with exceptions, the student must make that request in writing to the program coordinator.
